AN INITIATIVE UNDER NEXT IAS 2.0 ADVANCE COURSES

CMD's Message

I welcome you to NEXT IAS where your commitment and devotion will be integrated with our passion and years of experience in guiding and navigating you to your goals successfully. Our programs emphasize a focused approach and skill set development so that our students are trained to emerge victorious not only in this examination but in every challenge of life.

NEXT IAS has been pioneers in developing exam-oriented programs that aid and assist students with the right tools and support mechanisms to crack the CSE Examination. Keeping this endeavor in mind we have launched the AIM program to provide students who have completed their syllabus an appropriate environment and support from experts in Content updation, Note making, Answer writing and improving prelims competence. The Program comprehensively enhances your potential at all stages of the exam from Prelims to the Personality Test.

We are highly committed, passionate and strive to genuinely assist students to ensure that they are successful in qualifying for the Civil Services Examination. It's my personal endeavor to make the entire course student-centric with a highly constructive feedback mechanism. We have integrated the latest technological tools with a scientific approach to make the whole learning process seamless and effective for you.

Mr. B. Singh

MADE EASY Group

What is AIM Program?

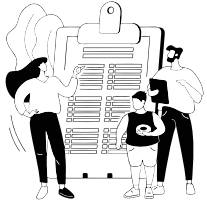

When we set out to design a program like AIM, we began by asking ourselves: What separates toppers from everyone else? Do they have some secret ingredient? Are they simply luckier? After extensive reflection, meticulous observation, and detailed analysis, the answers became clear.

UPSC toppers consistently maintain exceptional notes—concise, regularly updated, and easy to revise at crucial moments. Their preparation surpasses ordinary efforts; they relentlessly practice, tackling thousands of prelims questions and meticulously crafting countless mains answers until excellence becomes effortless. Crucially, toppers have strategic guidance—someone experienced, whether a mentor, sibling, friend, or senior—who has navigated this path, advising them precisely on what to study, what to skip, and how to effectively manage their preparation schedule. Most importantly, they had a clear, structured plan—they knew exactly what to do, where to invest their time, when to test themselves rigorously, and when to rest and recharge.

Inspired by these insights, we've carefully crafted a rigorous, highly regimented program designed to equip every student with the precise tools, strategies, and discipline toppers follow. Yes, this program is demanding. It will challenge your limits, and some may even consider stepping back midway. But if you commit wholeheartedly and follow through to the end, you will approach the exam knowing you have left nothing undone. There will be no regrets, no lingering questions of "Could I have done more?"—just absolute confidence that you prepared exactly as a topper would.

AIM is your chance to push beyond ordinary limits.

What's Included in the AIM Program?

1 LEARNING

Structured Study Plan

AIM follows a clear, easy-to-follow study schedule that organizes your daily and weekly tasks, so you can complete the entire syllabus within the available time without stress.

Smart Note-Making

AIM guides you in creating concise, systematically organized, and value added notes through workbook assignments, enabling quick and effective revision whenever required.

Complete Syllabus Coverage

AIM ensures comprehensive coverage of the entire syllabus, leaving no room for gaps in your preparation—an approach consistently followed by top rankers to avoid any syllabus blindspots.

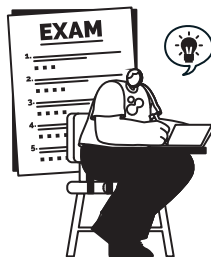

What's Included in the AIM Program?

2 TESTING

Answer Writing

AIM ensures consistent answer writing practice, supported by detailed feedback through Assessment & FLTs. This will enhance your ability to interpret questions accurately, structure effectively & manage time efficiently during the Mains exam.

Prelims Preparation

AIM provides 6 months of intensive dedicated preparation for Prelims. You'll take frequent and focused tests designed to sharpen your accuracy, improve speed, and build confidence for the Prelims exam.

Essay Writing

AIM teaches you how to structure, and write essays that reflect clarity of thought, balanced arguments, and in-depth understanding. From choosing the right topic to refining your writing style, our support ensures you develop the skills needed to write high scoring essays in the UPSC exam.

What's Included in the AIM Program?

3 MENTORSHIP

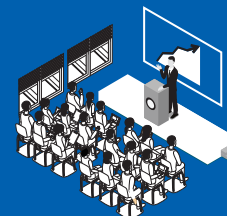

One-on-One Mentorship

AIM mentors offer personalized guidance tailored to your preparation needs, ensuring that every aspect is effectively addressed— whether it's clarifying subject-specific doubts, crafting a focused study plan, or maintaining motivation and accountability throughout your journey.

Focused Workshops

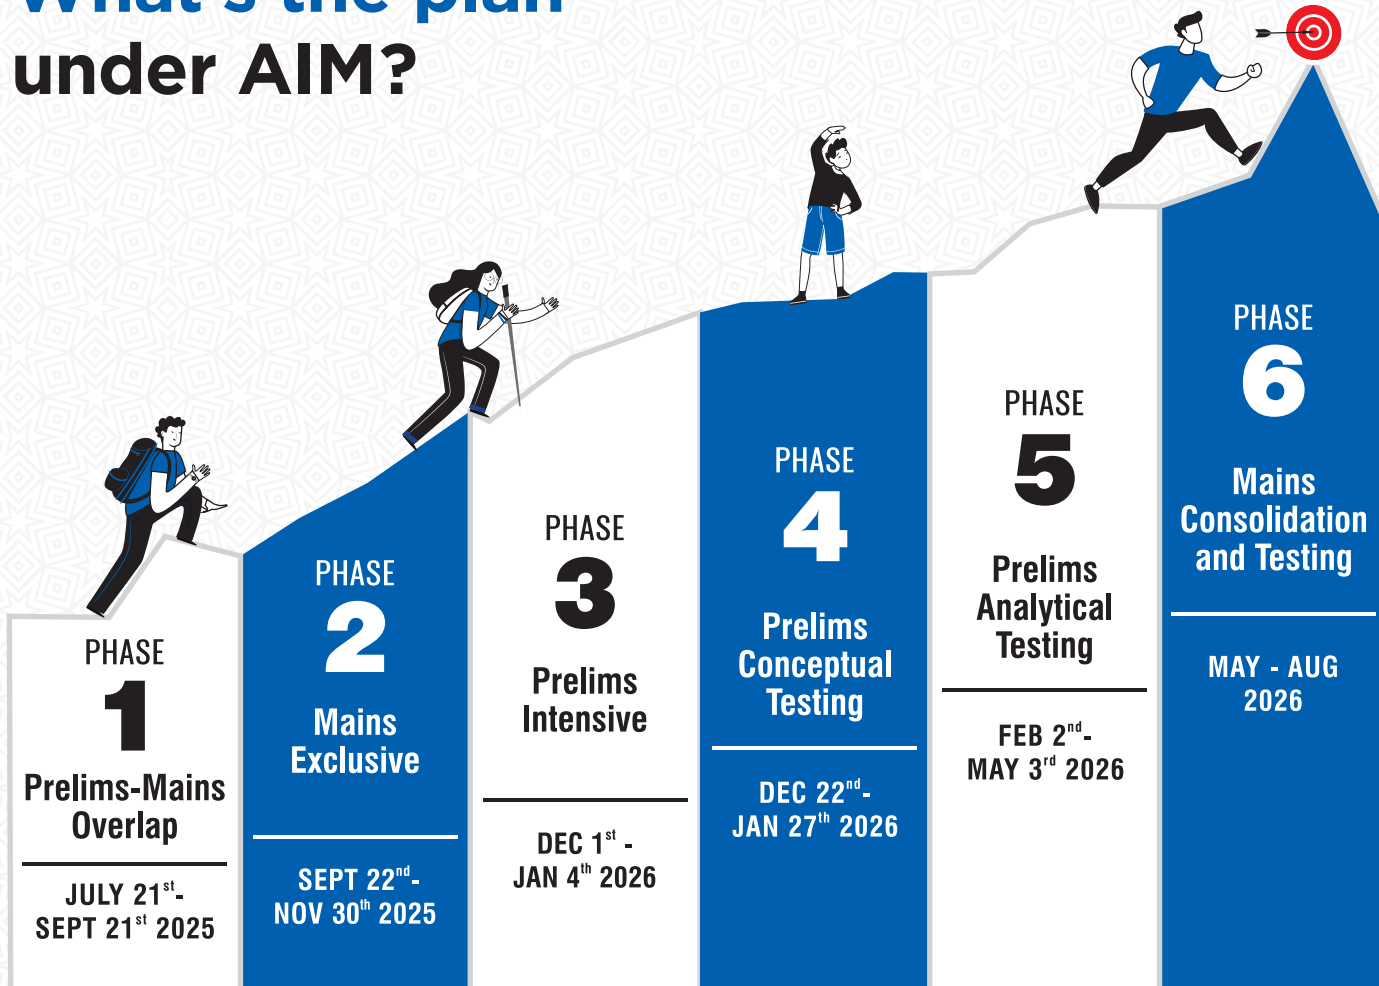

AIM Workshops are conducted on essential areas like effective note-making, structured answer writing, strategic handling of current affairs, essay improvement techniques, and smart approaches to GS and CSAT in Prelims. These sessions strengthen you to tackle every stage of the exam.

Value Addition Sessions

AIM Specially curated sessions focused on Previous Years' Question (PYQ's) analysis, smart approaches to handling assignments, and strategies for tackling assessment tests. These sessions help you identify gaps, refine your preparation, and steadily improve your performance to stay aligned with UPSC requirements.

What's the plan under AIM?

How will AIM Mentorship **Boost Your Preparation?**

Choosing the Right Resources

Mentors help you select the best study materials that match your syllabus, saving your time and efforts.

Keeping You on Track

Mentors regularly check your progress to ensure you're following your study schedule and help you quickly overcome any challenges.

Better Notes for Quick Revision

With mentor guidance, you can make clear and helpful notes, making revision easier and more effective.

Improving Answer Writing Skills

Mentors provide detailed feedback on your answers, helping you write better and score higher in exams.

Solving Personal Challenges

One-on-one mentoring sessions let you tackle specific issues, clear doubts, and boost your confidence.

Effective Group Discussions

Regular group meetings with mentors help you understand exam patterns, plan strategies, and thoroughly practice PYQs.

Encouraging & Supportive Guidance

Mentors offer support, motivation, and advice throughout your preparation, helping you stay focused and motivated during challenging times.

Smart Time Management

Mentors help you prioritize topics and allocate your time wisely, ensuring you balance all subjects efficiently without feeling overwhelmed.

AIM Lexicon

Workbook

A workbook is a subject-based note-making book divided into daily assignments, with space for brainstorming, summarizing key points, and adding useful insights to improve understanding of important topics that must be completed within a set time frame.

Assignment

An assignment is a UPSC Mains syllabus-based question requiring structured, research-driven thematic notes. Students get comprehensive solutions, explanatory videos, approach guidelines, and model answers. Students can discuss queries related to assignments with mentor.

Assessment

A weekly assessment test focuses on specific subject completed during that week. Its primary goal is to enhance answer-writing skills through practice. Each test comes with detailed solution, video explanation, good answers to compare with, and mentor feedback for improvement.

AIM to AIR

"AIM isn't just a course—it's a commitment. It will test you, exhaust you, and demand consistency like no other. But if you're in it fully, it creates the kind of discipline where even without motivation, your hands move, your mind delivers, and you keep showing up."

RITIKA CHITLANGIA
AIR-55 (CSE 2024)

"I had given two Mains attempts before—but still didn't know what I was doing wrong. AIM gave me structure, feedback, and the clarity to improve. The result? A 60-mark jump in GS."

ABHISHEK SINGH
AIR-78 (CSE 2024)

When I think about my journey with AIM, I am reminded of the adage - "Karat karat abhyas ke, jadmati hot sujaan" (Practice makes you perfect). Every day, we write 5–6 questions, and every week, there's an assessment test with 10 questions. This consistency builds a rhythm of preparation that pushes you to improve — no matter where you're starting from.

MAHI SHARMA
AIR-106 (CSE 2023)

"In UPSC, time is deceptive—most aspirants spend 3 out of 6 months just strategizing. AIM solves that by turning every day into execution, with a clear, structured schedule that became the backbone of my one-year plan. What truly stood out was the mentorship support—having access to experienced guidance made a huge difference, especially during moments of self-doubt. AIM kept me on track and confident throughout the journey."

MOHIT GUPTA
