## OPTIONAL ADVANCE COURSE

### FOR CSE 2026

**Avinash Singh Sir**  
B.Tech (IIT R), Ex. IES

This course is designed for students who have already covered the syllabus once and now want a quick, time-bound and exam-oriented revision of Mathematics Optional.

The focus of the course will be on quick revision of all important topics from **Paper I** and **Paper II**. All important questions, standard results, proofs and frequently repeated areas will be discussed in a systematic manner.

Students will also be provided with a **topic checklist for every subject** to ensure quick recall, structured revision and better tracking of preparation.

### Course Focus

- Foundation of important concepts through 25 Live Online Sessions
- Quick revision of high-yield topics
- Important questions and proofs
- PYQ-oriented discussion
- Topic-wise checklist for quick recall
- Answer-writing and presentation approach
