I joined AIM program in 2024 for 2k25,
(HINDI MEDIUM)

AIM program is really fantastic initiative.

This program provided 🙌🙌

Consistency, Smart Note Making, Conceptual clarity, Full syllabus revision many times, Answer writing, 4 days revision and note making and then PT aur Mains assessment tests.....

Mujhe ye program join karke bahut help hui hai, mujhe lagbhag is program se apni preparation ko 60-70% boost mila hai.

Kab, kya, kaise, kitna padhna hai ye time to time btaya jana, pyq analysis air bhi bahut kuch.

Sabse badh kar regular **Mentor talk**/discussion/ advice/full support as a friend
Like Mr. Sohil jain sir.(Best Mentor in Next ias)

Next IAS, **AIM program** is the best way to crack UPSC CSE easily, with good, experienced and well-behaved **mentors**. Also, the **mentors** help you solve your problem.

With this program, **answer writing problems** like hesitation, low confidence, data and facts, quality enhancement and most importantly, how to start and finish the answer go into the dustbin. **Prelims preparation also becomes easy** with this program as the alternate day sectional/topic-wise test will help you attempt the questions with confidence and high accuracy.

"Next IAS ka A.I.M. Program sirf ek course nahi, ek journey hai — jahan mentorship sirf guidance nahi, motivation ban jati hai. Har test ke baad milta hai brutally honest feedback, aur har doubt ke saath ek sincere mentor, Jo Prelims aur Mains dono ek rhythm me tayari karne k Lia bahut helpful hai . Har din ke target, har test ke baad ka personal feedback, aur har kadam par mentor ki guidance — sab milkar aapko topper ki tarah sochne aur likhne ke liye tayar karte hain. Ye program sirf jawab nahi sudhaarta, aapki soch ko nikharta hai. Agar sach mein UPSC seriously lena hai, toh A.I.M. sirf option nahi, zarurat hai."

Best UPSC mentorship program!
Ek saal me poora syllabus structured tarike se cover hua. Dedicated mentor ka support exceptional tha. Preparation focused rahi aur result positive mila. UPSC aspirants ke liye ye coaching truly game-changer sabit ho sakti hai.

AIM to AIR

"AIM isn't just a course—it's a commitment. It will test you, exhaust you, and demand consistency like no other. But if you're in it fully, it creates the kind of discipline where even without motivation, your hands move, your mind delivers, and you keep showing up."

"I had given two Mains attempts before—but still didn't know what I was doing wrong. AIM gave me structure, feedback, and the clarity to improve. The result? A 60-mark jump in GS."

AIR-78 (CSE 2024)

When I think about my journey with AIM, I am reminded of the adage - "Karat karat abhyas ke, jadmati hot sujaan" (Practice makes you perfect). Every day, we write 5-6 questions, and every week, there's an assessment test with 10 questions. This consistency builds a rhythm of preparation that pushes you to improve — no matter where you're starting from.

MAHI SHARMA
AIR-106 (CSE 2023)

"In UPSC, time is deceptive—most aspirants spend 3 out of 6 months just strategizing. AIM solves that by turning every day into execution, with a clear, structured schedule that became the backbone of my one-year plan. What truly stood out was the mentorship support—having access to experienced guidance made a huge difference, especially during moments of self-doubt. AIM kept me on track and confident throughout the journey."
