SPRINT 2026-27

5 Months Intensive Process Oriented

ADVANCED INTEGRATED MENTORSHIP PROGRAM

to Crack CSE 2027 **English Medium**

#QualityGuidanceMatters

CMD's Message

I welcome you to NEXT IAS, where your commitment will be combined with our expertise to guide you toward your goal. At NEXT IAS, we believe in your dreams and know that success comes from hard work and the right guidance.

AIM is our most demanding program. It is for the student **who has completed the syllabus** and now needs the environment that turns preparation into performance: content updation, note making, answer writing, and held together by mentors who know what the exam demands for. My personal commitment is to keep this course **student-centric**, with **honest feedback** and a **seamless process**.

Your effort is yours. Our role is to give it shape.

MR. B. SINGH

CMD, NEXT IAS & MADE EASY Group

AIM SPRINT

This is a five-month program built around a single target: Mains, CSE 2027. Over these five months you build **notes you can actually revise** in the final week, rather than folders that pile up unused. You **write until writing becomes routine**, through weekly assignments and timed assessments that come back with specific suggestions to lift your scores. You also stop strategising alone. **A dedicated mentor** for the course duration reviews your assignments, improves your assessment answers, fixes your source list, and keeps your strategy honest.

The program is demanding, and some participants step back midway. Those who stay walk into the Mains hall with their **notes ready**, their **writing routine set**, and the **syllabus behind them**, certain they used every week they had.

Who is AIM SPRINT for?

01

You have written Mains 2026.

You know where you can do better and that reading more will not fix it.

02

Your optional took over.

GS is exactly where you left it, and the gap is widening.

03

You are yet to start.

Still researching the perfect plan. Self-study has not worked.

04

This attempt has to work.

You are down to the attempt that matter. No version of this year repeats.

Five months of real work. That is the whole difference.

AIM SPRINT Journey

A process-driven plan, week by week,
phase by phase.

*Diwali holidays (9th NOV - 15th NOV).

*Prelims phase is included for students enrolled for AIM SPRINT+.

What **AIM SPRINT** changes

You end up with notes you can actually revise

LEARNING

You stop collecting. You start owning.

One set of notes for the entire syllabus, built around what UPSC asks, not what a book happens to cover. Every keyword is broken into the dimension the paper tests.

The notes in the exam hall are in your own hand.

You research from standard sources, condense, and value-add with intros, diagrams, and keywords. Your structure, your language.

You know what good looks like before you write.

Every theme comes with an approach, a reference solution, a visual explanation, and the cohort's best assignments. You see the standard, then write to it.

TESTING

The week's reading becomes tests by Sunday.

On Sunday weekly assignment themes return in UPSC's language and complexity. Every week you learn whether your research is sufficient to write UPSC standard answers.

You get to experiment before it costs you.

Early half tests carry hints and proactive feedback. As the subject closes, the scaffolding comes off. Experiment when stakes are low. Execute when they are not.

Every paper tells you exactly what to fix.

Assessment tests are evaluated in detail, you get a reference solution, a visual explanation, and the best peer answers. You fix before the next test, not after mains.

"I had given two Mains attempts before, but still didn't know what I was doing wrong. AIM gave me structure, feedback, and the clarity to improve. The result? A 60-mark jump in GS."

Abhishek Singh (AIR-78, CSE 2024) Batch 2024

What AIM SPRINT changes

You end up making decisions you can defend

MENTORING*

Someone reviews your writing every week.

Your mentor reviews your assignments, analyses your assessment answers, and settles which standard sources you should be reading. They will help fix what you are getting wrong sooner.

You cannot quietly disappear for three weeks.

Go silent and the team reaches out, mail, message, or a call when the pattern calls for it. The accountability is structural. You are not preparing alone.

You stop taking year-shaping advice from strangers.

Each week: what to keep doing, what to drop, what to fix before the next test. Most aspirants decide off YouTube and Telegram. You take advice from someone who has experience guiding students like you.

**Dedicated mentor will be only upto 31st Jan, 2027.*

Inside the AIM Portal

1. **WORK TRACKER** Every assignment and every test in one place. What is done, what is pending, what is coming up next.
2. **SCORE HISTORY** Your scores from every test, plotted across weeks and subjects. The patterns in your preparation, made visible.
3. **MENTOR DASHBOARD** Direct messaging with your dedicated mentor. Specialist consultations from Phase 7. Follow-ups arrive here when you go quiet.
4. **SCHEDULE NUDGES** Reminders before deadlines, before tests, before sessions. The schedule is yours; the prompts arrive on time.
5. **SOLUTION ARCHIVE** Reference solutions, visual explanations, and the best peer answers, available the moment a paper closes.
6. **PEER RANKINGS** Weekly and monthly rankings across the cohort. You see where you stand among aspirants writing the same papers.

"If one will follow the advice of the mentors which are top notch in the institute, will be much ahead in his/her preparation."

6 Ways AIM SPRINT Gets You Mains Ready

1

WORKSHOPS

Learn how toppers structure a 250-word answer in 7 minutes and more.

2

NOTES

Enhanced, Value-added and built for revision right up to the moment you step into the exam hall.

3

HANDOUTS

Paper-specific factsheets, keyword glossaries, and one-pagers. Built for fast recall.

4

MENTORSHIP*

A mentor who shows you the path, sets the pace, and flags the traps. Mains prep with experience on your side.

5

SCAFFOLDING

Break Mains answer writing into stacked steps: design, experiment then scale. Each test builds on the last. By full papers, execution is automatic.

6

ASSESSMENT

Sectional tests with handholding through every step. Scaffolded so the full paper feels within reach.

**Dedicated mentor will be only upto 31st Jan, 2027.*

How AIM SPRINT Works, in Four Words

Workbook

Your **subject-wise notebook**, structured into **daily assignments**. Space to **brainstorm**, **summarise**, and **build understanding** one topic at a time, on a schedule the program sets for you.

Assignment

A **Mains-style question**, set on the syllabus you have just covered. You write it. You compare your answer with **model answers and approach guidelines**. You discuss your gaps with a mentor.

Assessment

A **weekly test** on the subject you have just finished. You **write under time pressure**, you get a **marked paper** with **mentor feedback**, & you walk into the next week knowing where you stand.

Phase

A **distinct stretch of the AIM journey**, calibrated for a specific kind of work. Each phase has its own **intensity**, its own **focus**, and its own **role** in your preparation.

A Week in AIM SPRINT

Weekly Sessions, Tests and Activities

- ☑ Daily **Approach to Question**
- ☑ Daily **Assignment Solution**
- ☑ Daily **Assignment Visual Explanation**
- ☑ Weekly **Tests**
- ☑ Weekly **Tests Solution**
- ☑ Weekly **Tests Visual Explanation**
- ☑ Mains **Value Addition Material**
- ☑ Academic **Mentor Interaction**
- ☑ Weekly **Tests Best Copies**

"I think the conviction with which you are providing the every day assignments and even bettering it every year is commendable. Trying to get in more resources and improving it based on feedback."

GS PAPER-1

ESSAY

*This schedule can be subjected to minor changes wherever and whenever necessary as deemed appropriate by NEXT IAS management.

*Half Tests will have 10 questions (125 marks) and Full Tests will have 20 questions (250 marks). *Diwali holidays (9th NOV - 15th NOV)

AIM SPRINT+

Includes

PTS BOOSTER

BOOSTER is a 4 months exam-conditioning programme. **Nothing new is taught.** By February the base is either in place or it is not, and what decides the paper from there is not how much you know but **how fast and how accurately** you can get it out with a clock running. **Testing becomes the routine**, not the checkpoint. Most aspirants spend February to May revising, because revision feels productive. It is the thing that moves the needle least.

BOOSTER exists so that what you know becomes what you score.

CA-VA Prelims Module

The **CA-VA Prelims Module** focuses exclusively on **Prelims-relevant current affairs**, filtered through the exam lens and **organised subject-wise** in alignment with the syllabus, ensuring **revision happens in context**, not isolation.

The program follows a **test-led, recall-driven structure**. **Prelims Micro Tests** before every class expose gaps, and **subject-level full-length tests** consolidate preparation under exam-like pressure. Conducted as a **short, intensive 2- 3 Months programme**, **CA-VA** is meant for the final phase of Prelims preparation, for aspirants who want **clarity, discipline, and confirmation** that their current affairs is prelims ready.

***The Principle.** Spacing and desirable difficulty. A paper every other day, on syllabus you have already met, is harder than revision, which is exactly why it works. Forty-six papers, 3,340 questions, no new reading list.*

The **BOOSTER** Plan

Start
1st Feb

PTS-**BOOSTER**

End
Prelims

46 Tests · 3,340 Questions

20

SECTIONALS

Half-length GS papers, 50 questions. Alternate days from 2 February. Volume first, until the syllabus stops feeling large.

10

GS FLT's

100 questions, two hours, the exam's own shape. Where you learn what your accuracy does across a long paper.

10

CSAT FLT's

80 questions, two hours. Ten full papers, because the one that eliminates people is the one they assumed they would clear.

06

SIMULATORS

3 GS and 3 CSAT, run the way UPSC runs them. GS in the morning, CSAT in the afternoon, same day, on the clock.

12 Reasons to choose PTS-BOOSTER

- 1 Intensive & Phased Testing
- 2 Complete Syllabus Coverage
- 3 PYQ-Integrated Framework
- 4 UPSC-Style Question Pool
- 5 Detailed & Lucid Solutions
- 6 Accuracy-Probability Mapping
- 7 Hybrid Course Access
- 8 Daily Rank List
- 9 PTS Portal with Advanced Analytics
- 10 Subject-Wise Insight Reports
- 11 Customized Remedial Tests
- 12 Prelims Strategy Workshops (Online)

PTS-BOOSTER Tests Explained

SUBJECT-SPECIFIC SECTIONAL TESTS

These **half-length, topic-focused tests** help you **build depth and accuracy** within a subject. By testing you soon after study and revision, they **highlight conceptual gaps** early, **improve option elimination**, and ensure each subject becomes a strength, not a liability.

50 Questions

1 Hour

Non-Flexible*

SUBJECT-SPECIFIC FULL TESTS

These tests help you **consolidate an entire subject** in one sitting. They train you to **link topics, manage fatigue**, and **maintain accuracy** across a longer paper, exactly what **UPSC demands** when questions span **multiple sub-themes** of the same subject.

100 Questions

2 Hours

Non-Flexible*

GS & CSAT FULL LENGTH TESTS (FLT'S)

FLTs are designed to build the **Prelims mindset**. They train you in **real-time decision-making, what to attempt, what to skip, and how to manage risk** under time pressure. These tests are crucial for refining **attempt strategy, elimination skills, and time management**.

100 Questions

2 Hours

Non-Flexible*

*Visual explanation included for these tests. *All tests in PTS-Booster phase are non-flexible.

Your structured plan have helped me improve my mains GS score from 300 to 410. I am glad that I opted to join AIM program.

**This schedule can be subjected to minor changes wherever and whenever necessary as deemed appropriate by NEXT IAS management.*

CA-VA PRELIMS

*“Not Just classes.
A learning loop
designed to convert
current affairs
into Prelims marks.”*

A Week in CA-VA Prelims

**This schedule can be subjected to minor changes wherever and whenever necessary as deemed appropriate by NEXT IAS management.*

CA-VA Prelims Course Features

A consistent newspaper reading habit is an essential starting point for current affairs preparation. Most aspirants assume they are **adequately covering current affairs**, that it can be **consolidated later**, or that it is **already under control**. The routine slowly turns into moving through **unending magazine pages, informative, exhaustive**, but rarely interrogated for relevance.

As the exam approaches, the challenge is rarely a lack of effort. It is the **absence of clarity** on what is actually **relevant and recallable** under exam conditions. **Multiple sources, deferred revision**, and **passive reading** can create a sense of coverage without confirming readiness.

The **CA-VA Prelims Module** is designed to address this gap.

Prelims Current Affairs in 25+ Sessions

25+

Curated coverage of **high-probability current affairs**, filtered strictly through **UPSC Prelims relevance** to avoid information overload.

Prelims Micro Tests (PMTs)

Short diagnostic tests before every class test your mind, **reveal gaps instantly**, and make **learning sharply outcome-oriented**.

Recall Worksheets

Short, structured worksheets provided to fill at the end of each session will help you **actively recall and summarise** what was covered before you move on.

4 Full Length Tests

A 3rd layer of revision after PMTs. These **subject-wise Full-length tests** help **consolidate learning** and **simulate real exam-level pressure**.

"AIM isn't just a course, it's a commitment. It will test you, exhaust you, and demand consistency like no other. But if you're in it fully, it creates the kind of discipline where even without motivation, your hands move, your mind delivers, and you keep showing up."
